

GENERAL COMPLIANCE STATEMENT

Vegan Status – Absence of Animal Derived Compounds in Durst Inks

Durst does not intentionally add any animal-derived materials to the ink products listed in Appendix A. Further, a review of our raw material components does not reveal any obvious ingredients that would be considered animal-derived materials. However, we cannot state with absolute certainty that the use of, or processing of, the upstream materials has not been done completely free of or in the presence of animal-derived materials, nor that there may be animal-derived materials for which we are not aware.

In addition, the products listed have not been subjected to any type of testing on animals by our company. The products are formulated from standard chemicals widely available on the European market, where European legislation governs the supply of these chemicals and also any requirements regarding animal testing, which are out of our control.

This declaration is limited to Durst products in their original packaging and is void upon Durst products being altered or contaminated in any way.

We stay at your disposal for any further questions.

Best regards,

A handwritten signature in blue ink, appearing to read "S. Kappaun", is written over a horizontal line.

Dr. Stefan Kappaun, MBA
Executive Vice President Inks and Fluids
